

Oil & Gas 2024 Program

march	<ul style="list-style-type: none">• Overview Of Oil Production Engineering from A To Z• Process Engineering Fundamentals Technologies• Process Plant Optimization
April	<ul style="list-style-type: none">• Process Plant Start-Up, Commissioning & Troubleshooting• Tank Farm Operations and Performance• Transportation Of Crude Oil & Petroleum Products
May	<ul style="list-style-type: none">• Well Completions & Capital Well Equipment• Oil And Gas Pro-WPS Office• Oil And Gas Operational Safety
June	<ul style="list-style-type: none">• Enhanced Oil Recovery• Esp Operation, Design, Maintenance and Troubleshooting Introduction• Gas Lift• International Petroleum Management
July	<ul style="list-style-type: none">• Maintenance In Oil Storage Tanks• Hydraulic Pump• Industrial Fire Pollution and Control
August	<ul style="list-style-type: none">• Fire Fighting A-WPS Office• Emulsions And Oil Treating Equipment• Drilling Fluids & Casing & Cementing Operations and Casing Design
September	<ul style="list-style-type: none">• Sucker-Rod Lift• Well-Test-Analysis• Xmas Trees and Well Heads
October	<ul style="list-style-type: none">• Aspen HYSYS Expert Level• Aspen HYSYS User Level• Directional Drilling Technology Course
November	<ul style="list-style-type: none">• Drilling Equipment & Operations & Bits and Advanced Drillstring Design• Advanced Maintenance Management Course• Aspen HYSYS Program Basic
December	<ul style="list-style-type: none">• Boiler Operation Maintenance• Well Control & Well Integrity and Drilling in High Pressure High Temperature (HPHT)
